

ALL EYES ON YOUR REMOTE PROPERTY AND EQUIPMENT.

**NEVER MISS A MOMENT WITH
ONSIGHT REOLINK CAMERA MONITORING SYSTEM.**

Sentry's simple solution, the OnSight Reolink remote battery-powered camera with solar recharging, allows you to keep an eye on remote properties, facilities, mobile equipment and operations. Cellular transmission allows for 24/7/365 monitoring of outdoor environments. And the smartphone app notifies you of activity. With pan and tilt capabilities, one camera can cover large remote sites, allowing flexibility in camera placement.

The only cellular communicated camera you need:

1. Long-lasting batteries with solar power ensure cameras are always on.
2. Notifications via text or email when movement is detected, batteries are low or electricity is out.
3. Ability to schedule recordings for specific dates and times.
4. Don't just watch – listen and talk back in real-time.
5. Easily search through recordings with the time-lapse function.

SENTRY'S ONSIGHT REOLINK BY THE NUMBERS

- 355-degree pan & 140-degree tilt
- 2K/4MP super HD resolution
- 6 IR LEDs for night vision
- Communicates using a built-in 3G/4G LTE cellular network
