

HOW IT WORKS

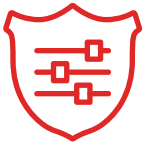

AVOID UPSETS AND CATASTROPHIES

- High tank levels
- Compressor malfunctions
- Electricity outages
- Spills
- EPA violations

EASY TO INSTALL AND CUSTOMIZE

- Quick installation
- Configured from the factory and ready to go
- 4x dry contact (0 voltage) inputs
- 1x1 amp, 30 VDC output
- Perfect for a Murphy Gauge

WATCHDOG ST

- A simple, robust alarm for critical systems
- Weatherproof enclosure
- Monitors 4 custom setpoints
- Sends alerts when setpoints are reached
- 3 second, 1, 5, 10 minute delay options

WORKS EVERYWHERE

- Communicates via satellite
- No broadband or phone lines required
- Not limited by network coverage
- No external power source required
- 1+ years of battery life

ALERTS ON THE GO

- Be in the know 24/7/365
- Alerts sent via text, emails, and/or phone calls
- Reliable communication
- Alerts up to 15 recipients
- Add or remove recipients any time

INDUSTRY APPLICATIONS

Natural Gas

- Soap stick launcher functioning
- Gas well production facilities monitoring

Oil Production

- Compressor on or off
- Pipeline pressure too high

Rural Water Districts

- Water tank levels
- Tank pressure levels

Agriculture

- Low stock tank levels
- Propane tank level monitoring
- Irrigation pump failure
